IMPORTANT UPDATE

PMI is committed to the safety and well-being of our global community. Resulting from COVID-19, there have been significant changes to certification testing that may impact you. Please refer to our COVID-19 page for the most up to date information and guidance.

At this time, we are experiencing a surge in applications for Program Management Professional (PgMP)®. We ask for your patience as the panel review process may currently take up to 60 days to complete. Our service always continues to remain our top priority, and we continue to look forward to supporting you now and into the future.

As a program manager, you're a senior-level practitioner on the forefront of advancing your organization's strategic goals.

You manage multiple, related projects in a coordinated way, achieving benefits that could not occur if the projects were handled separately.

Your leadership is instrumental. With program management maturity, an organization's projects are far more successful than without it — 76 percent compared to 54 percent according to our 2015 *Pulse of the Profession*® report. The Program Management Professional (PgMP)® is a visible sign of your advanced experience and skill and gives you a distinct advantage in employment and promotion.
