## Demonstrate Your Agile Team Experience Runs Deep

If you're experienced using agile approaches, have good collaboration skills, eagerly embrace complexity and thrive on rapid response times, then your talents are in demand.

From the people who brought you the PMP®, the PMI Agile Certified Practitioner (PMI-ACP) formally recognizes your knowledge of agile principles and your skill with agile techniques. Show your peers, employers, and stakeholders that your agile knowledge runs deep.

Created by agilists for agilists, the PMI-ACP is our fastest growing certification, and it's no wonder. Organizations that are highly agile and responsive to market dynamics complete more of their projects successfully than their slower-moving counterparts—75 percent versus 56 percent—as shown in our 2015 Pulse of the Profession® report.

The PMI-ACP spans many approaches to agile such as Scrum, Kanban, Lean, extreme programming (XP) and test-driven development (TDD.) So it will increase your versatility, wherever your projects may take you.

## Covid Update

PMI is committed to the safety and well-being of our global community. Resulting from COVID-19, there have been significant changes to certification testing that may impact you. Please refer to our COVID-19 page for the most up to date information and guidance.
