The PMI-RMP Exam is Now Online

Take your PMI-RMP Certification Exam from your home or office, 24/7.

Learn more about the Online Proctored Exam.

With your advanced skills in risk management, you perform a specialized function attuned to the needs of a project environment that is increasingly global, virtual and complex.

The PMI Risk Management Professional (PMI-RMP)® highlights your ability to identify and assess project risks, mitigate threats and capitalize on opportunities. In this capacity, you enhance and protect the needs of your organization.

Gaining distinction as a PMI-RMP® sets you apart from other professionals and brings credit to your organization. Eighty-three percent of organizations that are high performers in project management practice risk management frequently while just 49 percent of low performers do so. The practice contributes to a handsome payoff: high performers meet their goals 2.5 times more often and waste 13 times less money than low performers, as found by our 2015 *Pulse of the Profession*® report.

If you're ready for greater recognition, the PMI-RMP will validate your specialized expertise and help you stand out to employers, stakeholders and peers.

Who Should Apply?

If you have advanced knowledge and experience in risk management, or if you are a project manager focused on project risk management, including for large projects and/or complex environments, then the PMI-RMP® is an excellent choice for you.

Gain and Maintain Your PMI-RMP

The certification exam has 170 multiple-choice questions and you have 3.5 hours to complete it.

Prerequisites

Secondary degree (high school diploma, associate's degree, or the global equivalent)

36 months of project risk management experience within the last 5 years

40 hours of project risk management education

OR

Four-year degree (bachelor's degree or the global equivalent)

To maintain your PMI-RMP, you must earn 30 professional development units (PDUs) in risk management topics every three years.

24 months of project risk management experience within the last 5 years

30 hours of project risk management education
