Full Job Description

SUMMARY:

To oversee quality performance on Greensboro Filters. This position is responsible for (1) ensuring customer complaints are investigated and corrective actions are implemented. (2) continuous improvement in the quality programs. (3) Functions as an individual contributor on key projects (example – developing a quality plan for new products and processes).

KEY ACCOUNTABILITIES & RESPONSIBILITIES:

- Analyze business and manufacturing processes to find opportunities for quality improvement with support of local experts at the Greensboro location (defect reduction, LEAN QA workflows, etc.).
- Direct line management of the GSO QA team and associate with the quality support personnel at the Paraguay and Richmond factories.
- Individually contribute as a leader or team member on strategic products to ensure the appropriate quality protocols are developed and followed.
- Direct communication with customers as appropriate (email and face to face).
- Oversee compliance with relevant standards (ISO, FDA, etc) and facilitate external audits as required (compliance and customer). Oversee and maintain the Quality Management System.
- Work closely with site leader to gain commitment of site resources and establish an accountable organization for driving on-going quality improvements.

REQUIREMENTS:

- Engineering or technical background, technical knowledge base as outlined above
- Above 10 years relevant working experience including 3+ years leading projects
- Prior experience with Six Sigma methodologies: LEAN, Green Belt, Black Belt
- Knowledge of 8D and MQS methodologies

Job Type: Full-time

Pay: \$75,000.00 - \$90,000.00 per year

Benefits:

- 401(k)
- 401(k) matching
- Dental insurance
