IMPORTANT UPDATE

PMI is committed to the safety and well-being of our global community. Resulting from COVID-19, there have been significant changes to certification testing that may impact you. Please refer to our COVID-19 page for the most up to date information and guidance.

As a candidate for the PMI Scheduling Professional (PMI-SP), you know there is much more to project scheduling than just the use of tools and technology to build a schedule for your team.

Schedules are a fundamental element of project management yet half of all projects — 50 percent — are not completed within the initially scheduled timeframe according to our 2015 *Pulse of the Profession*® report.

Projects and teams today are increasingly global and virtual, and project schedules are key to managing activities, resources, dependencies and ultimately, project outcomes. The PMI-SP will recognize your knowledge and skill to drive the improved management of project schedules.

Who Should Apply?

If you have advanced knowledge and experience developing, managing and maintaining project schedules and you'd like to showcase your skills, then the PMI-SP is an excellent choice for you.

Gain and Maintain Your PMI-SP

The certification exam has 170 multiple-choice questions and you have 3.5 hours to complete it.

To maintain your PMI-SP, you must earn 30 professional development units (PDUs) every three years in the specialized topic of project scheduling.

Prerequisites

Secondary degree

40 months of project scheduling experience within the last 5 years

40 hours of project scheduling education

OR

Four-year degree

24 months of project scheduling experience within the last 5 years

30 hours of project scheduling education

Exam Fee

Member: $520.00
Non-member: $670.00

For complete details on the eligibility requirements, see the PMI-SP Handbook 🄰.
