I was told by SC Housing to request another extension to my section 8 voucher. I also asked for a meeting in person with compliance department to get my Award settlement claims under the whistleblower OSH ACT and the mediation agreement that I signed with Maurice Handy from HUD for \$5 million dollars.

There should also be a case number for the City of Columbia under this whistleblower claim.

DEA reported by me pertaining meds.

Thanks,
Tinika SeCal Warren

Please Print these Chapter 7 Bankruptcy Letter companies are participating in retaliation violating Federal Bankruptcy Codes causing me to be without SAFE, AFFORDABLE, HOUSING which is an OSHA hazard to have me living in my car without anyone caring. I am seeking indictments for each person that retaliate against me per my OSHA, HUD, DOJ, and USDA right to sue letters that have been emailed to everyone. I need ADA ACT accommodations within 24 -48 hours from now.

Please call me at 803-696-0544 to address this issue.

I was told by SC Housing to request another extension to my section 8 voucher. I also asked for a meeting in person with compliance department to get my Award settlement claims under the whistleblower OSH ACT and the mediation agreement that I signed with Maurice Handy from HUD for \$5 million dollars.

There should also be a case number for the City of Columbia under this whistleblower claim.

DEA reported by me pertaining meds.

How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.1 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

Status code 554 5.4.14

Typically this error occurs because the recipient email address is incorrect or doesn't exist at the destination domain. This can usually be fixed by the sender. However, sometimes the issue needs to be fixed by the recipient or the recipient's email admin. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. A forwarding rule can be configured by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Mail flow settings and MX records are not correct - Misconfigured mail flow settings or MX records can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

Mail loop detected - This error also indicates that the receiving organization's email settings are misconfigured, creating a mail loop when a message is sent to an address that isn't found in their directory. This usually won't disrupt mail flow for recipients that actually exist, but the recipient's email admin should fix the misconfiguration to reduce the chance of any other mail flow issues. A common cause for this loop is that the recipient's domain is configured as "Internal Relay" when it should be "Authoritative."

Another common cause for the loop is that both the sender and recipient are part of the same organization, but the sender's mailbox is hosted by Office 365, while the recipient's mailbox is hosted on-premises, and an outbound connector from Office 365 to the on-premises email servers is missing or misconfigured. To fix this, the recipient's email admin should create a correctly configured outbound connector in Office 365 to route the message to the on-premises mailbox.

For more information and tips to fix this problem, see [Fix email delivery issues for error code 5.4.14 in Office 365](#).
